Raspberry is one of Orrefors most beloved classics. The many round 'drupelets' that give it its raspberry shape create a soft crystal feeling and a glittering brilliance that is highly recognizable. Designer Anne Nilsson is now expanding the series with glorious vases for tulips and cut flowers – but they're just as beautiful on their own. At the same time, frosted-glass versions of the entire series are being introduced, which are lovely when combined with the clear glass pieces. The frosted glass creates a gentler ambience with its velvety glow.
